

## March is National Athletic Training Month!

This year the theme is *"Healthcare for Life and Sport"*

MATS would like to encourage all of its members to promote our profession during this event. The NATA has compiled a list of tools for our members to use to help promote the profession of Athletic Training. Please refer to the following web address <http://www.nata.org/natm/index.htm> for the specific information.

If you or your staff have a creative idea please forward it to MATS so that we may share it with our members and post it on our website.

It is a crucial time for us to continue to promote ATCs, our role in healthcare and upcoming licensure in the very near future. Please send your photos, stories of your events, etc. to [mikebraid@msn.com](mailto:mikebraid@msn.com) attn: Mike Braid, MATS Public Relations Chair.

***MATS looks forward to sharing your promotion of our profession!***
